

CIRCULAR

TYPE & NUMBER EMR Circular 213

Date 28 May 2020

Purpose For information

Changes to EMRS Authorised Contacts will now be deployed later in June 2020

EMRS, on behalf of [Low Carbon Contracts Company](#) (LCCC) and [Electricity Settlements Company](#) (ESC) would like to inform **Capacity Providers, CFD Generators** and **Suppliers** that the changes to EMRS Authorised Contacts will be deployed towards the end of June 2020. We will communicate the exact date of deployment once this is confirmed.

These changes were due to be deployed on 1 June 2020. EMRS with the support of LCCC and ESC made the decision to delay the deployment until EMRS are fully operational, as we are currently operating a restricted service.

This provides **Capacity Providers, CFD Generators** and **Suppliers** additional time to review their Authorised Contacts. If changes are required to your EMRS Authorised Contacts this can be updated through the existing process in [WP31 – Amending EMR Party Details](#) available on the [EMRS website](#).

We initially contacted EMRS Authorised Contacts in early March 2020 to seek feedback on the proposed changes to the EMRS Authorised Contacts. Where possible we have made sure the changes are fit for purpose for EMR Parties.

Further details of the confirmed changes are available '[Changes to EMRS Authorised Contacts will now be deployed later in June 2020](#)'.
